Student is ready to safely handle dogs during clinical evaluations.</p>
Assessment methods:	Written test 10 questions. To pass, student must present or submit seminar.		
Formal documentation of learning outcomes:	Signed test papers, grade in eHMS		
Elements impelling final grade:	<p>100% test results: 1-5 pts 2 (failed) 6 pts 3 (sufficient)</p>		

	7 pts 3.5 (sufficient +) 8 pts 4 (good) 9 pts 4.5 (very good) 10 pts 5 (excellent)
Teaching base:	Facilities of the Faculty of Veterinary Medicine, Animal Shelter in Warsaw
Mandatory and supportive materials : Indicated by the teacher of scientific publications in the field of discussed content of education and scientific research conducted in the unit.	
ANNOTATIONS	

Quantitative summary of the module:

Estimated number of work hours per student (contact and self-study) essential to achieve presumed learning outcomes of the module - base for quantifying ECTS:	50 h
Total ECTS points, accumulated by students during contact learning:	1 ECTS

Learning outcomes of the module relative to the learning outcomes of the subject:

Outcome category	Learning outcomes:	Learning outcomes relative to the course outcomes	Impact on the course outcomes*)
Knowledge -	Student knows how to safely handle animals in order to carry out clinical evaluation and monitor heard health	W_NK5	2
Knowledge -			
Skills -	Student knows self and employer responsibilities and obligations in light of the law and occupational health and safety regulations	U_OUZ8	3
Skills -	Student handles animals in safe and humane way, and instructs others to do alike	U_PUZ2	3
Competences -	Student takes responsibility for his decisions concerning humans and animals	K_KP1	2
