

Syllabus

Module title:	Behavioural medicine of cats and dogs	ECTS	2
Polish translation:	Medycyna behawioralna psów i kotów		
Course:	Veterinary medicine		

Module language: English		Stage: JM	
Form of studies: <input checked="" type="checkbox"/> intramural <input type="checkbox"/> extramural	Type of module: <input type="checkbox"/> basic <input checked="" type="checkbox"/> directional <input type="checkbox"/> accessory <input type="checkbox"/> rotation <input type="checkbox"/> summer practice	<input type="checkbox"/> mandatory <input checked="" type="checkbox"/> elective	Semester: ...10..... Year 5 <input type="checkbox"/> winter semester <input checked="" type="checkbox"/> summer semester
Academic year: 2023/2024		Catalogue number:	FVM-V-JMSS-10S-E23_23

Module coordinator:	dr Jagna Kudła		
Teachers responsible for the module:	n/a		
Unit responsible for the module:	Department of Small Animal Diseases with Clinic		
Faculty in charge:	Faculty of Veterinary Medicine		
Objectives of the module:	To acquaint students with the behavioural needs of dogs and cats, most common behavioural or mental disorders and the possibilities of their prevention, diagnosis and treatment.		
Teaching forms, number of hours:	a) Lectures: 30 h		
Teaching methods:	Multimedia presentations, case studies		
Formal prerequisites and initial requirements:	Dog and cat diseases, Veterinary pharmacology modules 1 & 2 Student knows and recognizes the symptoms of internal and infectious diseases as well as cranial and vertebral disorders of dogs and cats.		
Learning outcomes:	<p>Knowledge: Student is able to obtain a behavioural history Student is able to recognize the natural and pathological behaviour of dogs and cats and list the basic behavioural needs of animals of these species Student is able to list and describe most common canine and feline behavioural and mental disorders Student is able to list and describe methods to prevent behaviour problems in dogs and cats Student is able to list and describe the basic methods of treatment of behaviour problems in dogs and cats Student is able to choose appropriate behaviour modification techniques and apply proper pharmacotherapy</p>	<p>Skills:</p>	<p>Competences:</p>
Assessment methods:	1. Evaluation of student presentations. Written exam (33 questions, 75% correct answers to pass)		
Formal documentation of learning outcomes:	Evaluation of the presentation of clinical cases; signed test papers, grade in eHMS		
Elements impelling final grade:	Presentation of clinical case 30%, final exam 70%		
Teaching base:	The lectures will be held in classrooms of the Faculty of Veterinary Medicine		
Mandatory and supportive materials :	<ul style="list-style-type: none"> • Horwitz D., Mills D.: BSAVA Manual of Canine and Feline Behavioural Medicine (second edition), BSAVA, 2009 • Landsberg G.M., Hunthausen W.L., Ackerman L.J.: Handbook of behaviour problems of the dog and cat. Elsevier, Westborough, 2003 • Overall K.L.: Clinical Behavioral Medicine for Dogs and Cats. Elsevier, St. Louis, 2013 		
ANNOTATIONS			

--

Quantitative summary of the module:

Estimated number of work hours per student (contact and self-study) essential to achieve presumed learning outcomes of the module - base for quantifying ECTS:45.... h
Total ECTS points, accumulated by students during contact learning:	...2.... ECTS

Learning outcomes of the module relative to the learning outcomes of the subject:

Outcome category	Learning outcomes:	Learning outcomes relative to the course outcomes	Impact on the course outcomes*)
Knowledge /Skills	Student is able to obtain a behavioural history	W_NK4, W_NK7, U_PUZ1, U_OUZ2	3
Knowledge -	Student is able to recognize the natural and pathological behaviour of dogs and cats and list the basic behavioural needs of animals of these species	WW_NP6	3
Knowledge	Student is able to list and describe most common canine and feline behavioural and mental disorders	WW_NP7, W_NK3	3
Knowledge	Student is able to list and describe methods to prevent behaviour problems in dogs and cats	W_NK3	3
Knowledge	Student is able to list and describe the basic methods of treatment of behaviour problems in dogs and cats	W_NK3	3
Knowledge	Student is able to choose appropriate behaviour modification techniques and apply proper pharmacotherapy	WW_NP7, W_NK3, U_PUZ12	3
